# Nevada Fast Triangle

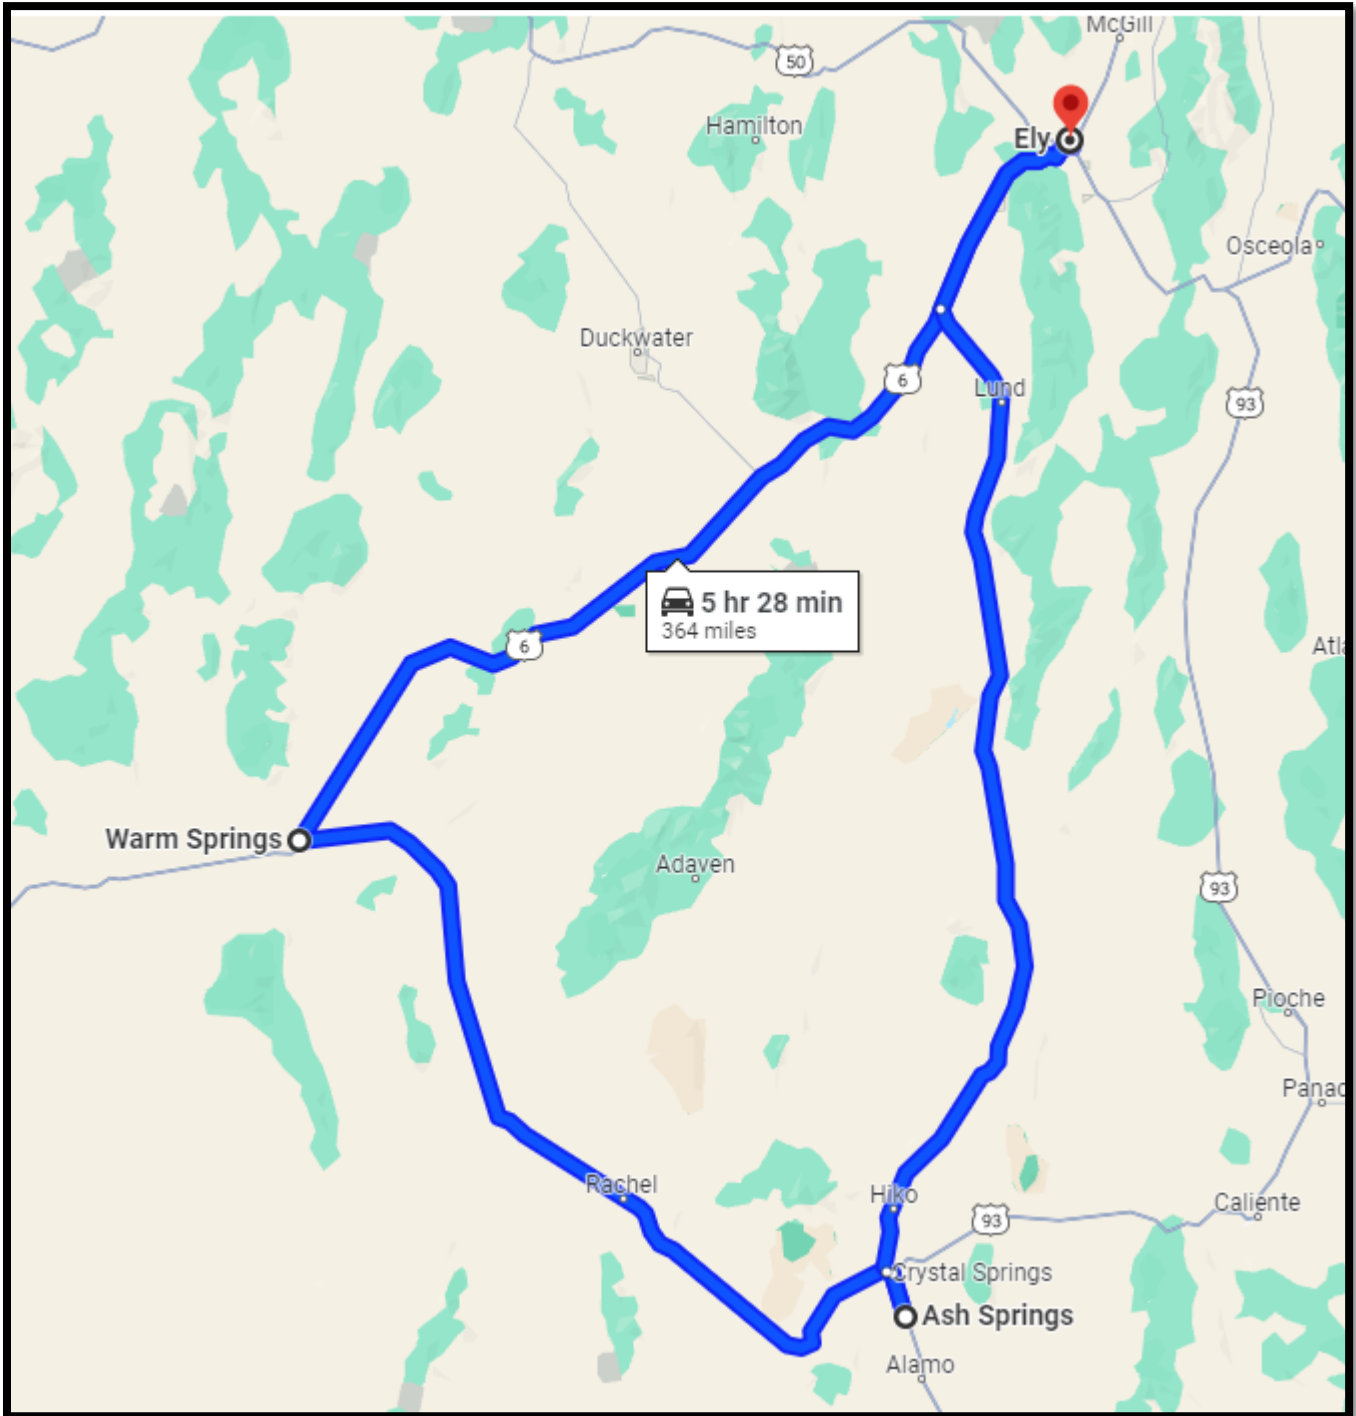

The Cognoscente Group

ToH Stampede – Nevada Fast Triangle

7/20/2024

The Nevada Fast Triangle (NFT) is comprised of three of the fastest roads in Nevada that are connected at their endpoints to form a rough triangle. The three highways are: NV HWY 6, NV HWY 375 and NV HWY 318. The total distance of one loop is 364 miles.

When riding the NFT, you are riding on Cognoscente hallowed grounds. World records have been set by Cognoscente riders here over the years, but they are never discussed in the public forum for obvious reasons. If riders ever wanted to explore their motorcycle's performance envelope, the NFT is an outstanding venue for this activity.

## Nevada Fast Triangle – ride options:

1. Riders may elect to continue past Warm Springs on HWY 6 for an additional 49 miles to Tonopah, Nevada to refuel and check out some of the unique attractions there, such as the historic Mizpah Motel and the spooky Clown Motel!
2. Tonopah is also home to the Tonopah Brewery, featuring some of the finest BBQ you will find anywhere in Nevada. Do yourself a favor and try their Burnt Ends with Mac-n-Cheese:

3. There is a nearby 2024 TOH Location near this area – you remembered your flag, right?
